

GOVERNMENT WILL OPERATE ALL COAL MINES WHERE OWNERS FAIL TO INCREASE OUTPUT

Soldiers Will Protect All Miners Who Desire to Return to Their Work

Fourteen Per Cent. Increase Will be Placed In Effect.

Government Policy Agreed Upon At Conference Wednesday Is Announced.

Many Mine Owners Expected To Place New Scale Into Effect Voluntarily.

(By Associated Press.)

Washington, November 28.—Seizure of bituminous coal mines, where the owners do not show a disposition to co-operate in increasing production, and use of troops to protect all miners who desire to return to work has been decided upon by the government in an effort to end the soft coal strike, it was stated today officially.

In mines seized by the government, the fourteen percent wage advance agreed upon by the cabinet will be put into immediate effect. It was said.

These plans of the government were agreed upon by the cabinet last Wednesday, officials said, so as to meet the situation resulting from a refusal of the operators or miners or both to agree to the government's wage increase proposal.

Cabinet officers expected many mine owners to put into effect voluntarily the fourteen percent wage increase.

Whether the mines of those refusing to do so would be seized was not made clear, but it was said that there was no general plan for government control, and that each individual case would be decided on its merits.

GARFIELD FIRM

Mines taken over by the government will be operated by the Fuel Administration, but details as to compensation to the owners were not disclosed. While various federal agencies were preparing to carry out the government's program, Fuel Administrator Garfield reaffirmed in even more emphatic terms his position that "profiteering on the part of either labor or capital will not be tolerated."

"The public cannot and will not be asked to bear the increased burden of higher prices of coal nor of the payment of a large sum as wages to any special class of workers," he said.

Fuel Shortage Adds to Discomforts in Many Districts.

(By Associated Press.)

Chicago, November 28.—Snow ranging in depth from two feet to an inch today covered most of the country between the Mississippi river and the Sierra Nevada Mountains and from Canada to Northern Texas, with low temperatures prevailing throughout the area.

A slight snowfall occurred in northern Illinois, Indiana and as far east as Toledo, Ohio, while word came that some snow fell in Los Angeles, California, and that two inches of snow covered the ground at the aviation field near Riverside, California.

South of the snow belt, heavy rains fell and floods swept the lowlands in Arizona, with possible loss of life.

Suffering in many places in the central and southwest regions was in prospect because of the extreme cold and the limited fuel supply resulting from the coal strike.

In the western plains states trains were delayed and wire communication crippled.

Baltimore, Md., November 28.—The group of buildings formerly occupied by Johns-Hopkins University, and about a score of other structures in the square bounded by Howard Ross monument and Eutaw Streets, were either destroyed or wrecked by fire today, entailing a loss roughly estimated at \$1,000,000, of which about \$700,000 falls upon the university.

The blaze started in McCoy Hall of the Hopkins group from an undetermined cause. An explosion followed almost instantly, and heavy explosions occurred in the building from time to time. Nine firemen were injured.

(By Associated Press.)

Berlin, November 28.—The Lettish government has recalled its diplomatic representative from Berlin and, in view of the attack of Colonel Avaloff Bermond's troops, Lettia regards herself in a state of war with Germany, according to semi-official sources here today.

The German representatives still at Riga and Libau, it is stated, will therefore be recalled.

COLD WEATHER AND SNOWSTORM ARE SPREADING

(By Associated Press.)

Chicago, November 28.—Cold weather with snow and sleet today had spread over the middle west and southwest and rendered more critical the fuel situation brought about by the miners' strike.

In many cities and towns the fuel shortage was acute with actual suffering in some places. Moderation of the cold wave by tomorrow was forecast.

In the coal fields of Illinois, Indiana, Ohio, Pennsylvania and West Virginia the miners remained apparently firm in their determination not to return to work.

In some districts officials of the union predicted that many men who had returned to work would walk out again as result of failure of negotiations.

It is claimed that Germany should not be responsible for the act of the marine forces at Scappa Flow.

"Next Step" in Jenkins' Case Will be Watched With Deep Concern.

(By Associated Press.)

Washington, November 28.—Although further investigation of facts will be made, the American government has no intention of receding from its position in the Jenkins case, administration officials declared today.

The government, they said, is prepared for "the next step," which may take the form of an ultimatum to the Mexican government.

The Mexican reply to the American demand for the immediate release of Jenkins raises a new issue that Jenkins made contradictory statements to the trial judge and this, officials said, must be investigated. Instructions will go forward to the Embassy at Mexico City to investigate this charge and also obtain copies of this indictment and charges against the consular agent.

Administration officials indicated the negotiations would not be prolonged if unsatisfactory; that the American government had decided upon a course of action and was prepared to carry it out should that become necessary.

YANK TRIES HARD TO SEE THE EXILE

Amerongen, October 28.—(Correspondence of The Associated Press by Mail)—A young man who registered as John E. Best, aged 28, of South Portland, Me., has just left Amerongen, presumably to return to America, after spending nearly a week here in a fruitless and somewhat mysterious effort to see the former German Emperor at Bentinck castle.

Mr. Best said he had served in the American army as sergeant in the Medical Corps. He was questioned closely by Amerongen officials. He insisted that he had something important to tell the exiled ruler. He was allowed to stay until he was satisfied of the failure of his mission and was then given a hint it would be wiser for him to leave Amerongen.

San Antonio, Texas, November 28.—Fighting in Mexico City between factions dominated by President Carranza and General Alvaro Obregon was reported in apparently reliable advices received here today from the Mexican border.

It was reported President Carranza had fled to Queretaro for safety. The chief executive only recently returned to Mexico City from Queretaro where he had been during the lingering fatal illness of his wife.

General Pablo Gonzales was reported at the head of the Carranza forces. Details of the reported fighting were not available.

Obregon formerly minister of war in the Carranza cabinet, resigned recently after announcing himself a candidate for the presidency.

Carranza had stated that he would not again seek election. Another potential presidential candidate is General Gonzales who, it has been said, intended to resign from the army to inaugurate his political campaign.

THANKSGIVING IS OBSERVED IN UNION SERVICES

Simple and quiet services at the Christian Church in perfect harmony with the spirit of the day, emphasized the annual Thanksgiving observance in the city churches Thursday morning. The gathering was a union service of all the churches, made possible by a consolidation of citizens in all walks of life.

The city ministers had the program in charge. Although held at an unusually early hour the services were largely attended.

At eight o'clock the program was opened with singing. Rev. Gage of the Presbyterian church offered prayer.

Rev. K. B. Alexander of Grace M. E. Church read a few words from the scriptures and also offered prayer.

In an address from the heart that asked for a turning back to those days when the scriptures were read in family and the family altar was not unknown, Rev. C. R. Ferguson of the Baptist church appealed to his listeners in a strong Thanksgiving sermon. He brought attention to the many blessings for which the American republic should be thankful and contrasted with the condition of some of the former great countries of Europe with the wealth and luxuries of our own country.

Rev. Ferguson's word picture of the Thanksgiving of our forefathers was beautifully portrayed.

The union services were followed by a short testimonial meetings over which Rev. Alexander had charge.

Ashland Lady Confident Others May Find Some Relief In Trutona.

Ashland, Ky., November 28. — "I think Trutona is a very good medicine and I can recommend it to all of my friends, suffering as I did, and feel sure they will gain a wonderful lot of relief," Mrs. M. Manley, 606 East Front street, Ashland, said recently. "The trouble seemed to be principally with my stomach," she continued. "My Appetite was poor and I was usually in a constipated condition. I never had any desire to eat breakfast and when I did it caused me a lot of trouble I didn't sleep well at night, either."

"Although I have been taking Trutona only a few days it has made me feel a whole lot better. The food I eat agrees with me now as I'm not bothered with the constipation any more. Why, I can hardly wait to eat my breakfast these days and what I eat never hurts my stomach one bit. I sleep better at night too, than I have for some time and I feel better when I get up in the morning."

Trutona, the perfect tonic, is now being introduced and explained in Washington C. H. at Frank Christophers.

"YE OLD SONGS" END THANKSGIVING DAY

The concert at the Presbyterian Church of "ye olde" songs was an appropos finale to Thanksgiving day and a very enjoyable one, given by the Women's Guild of the church.

The program was composed entirely of old favorites and the singers all in costume.

Miss Ada Woodward made a charming picture, which might have been snatched from Colonial days and swept the graceful courtesy of the period when she was singing, "Believe Me if all the Endearing Young Charms," beautifully.

Mrs. Mary G. Burgett and Mrs. Amy W. Hudson were demure Puritan maids, who sang "Home Sweet Home" with much sweetness, and Miss Maxine Kibler, in picturesque costume, delighted the audience with her singing of "Last Night the Nightingale Woke Me."

One of the prettiest of the solos was "Love's Old Sweet Song," by Mrs. Burgett.

While each number was heartily applauded only two met response in encore—the quartette, "Sweet and Low" effectively rendered by Misses Woodward and Kibler, Messrs. Kibler and Paul, and the lovely trio, "Stars of a Summer Night" by Mesdames Hudson, Hall and Burgett. Both encores added spice, the quartette singing "Comin' Thru the Rye" and the trio, the old round "Scotland's Burning."

Misses Avonelle Timmons and Virginia Ellies played a pretty duet following the opening chorus.

The choruses were splendidly sung and at the invitation of Mrs. Lulu H. Robinson the audience joined in the chorus.

Mrs. Lillie G. Davis added much to the pleasure of the program in her organ solo, "Good-Bye" and in admirably played accompaniments.

The concert was in charge of a special Guild committee, Mrs. Kerr, chairman; Mesdames Davis, Robinson, Shoop, Burgett, Hudson, Misses Woodward and Kessler.

appreciative audience than that of Thursday evening at the Y. M. C. A. when the big gymnasium was filled to overflowing with scores of small boys.

Tom Mix and Bill Hart also came in for their share of the applause.

Thursday evening's entertainment was the first of its kind to be given at the "Y" and gave a good idea of those to follow.

SPECIAL MEETINGS AT GOOD HOPE

Beginning next Sunday afternoon at 2:30 Rev. Faulkner, evangelist from Hillsboro, will conduct special meetings in the Baptist Church. The evening services will open with a song service at 7 o'clock. All singers of the community are invited to assist in the choir.

This is to be a union meeting in which all who are interested in the advancement of Christ's Kingdom among men, are expected to take part. Rev. Faulkner who is a well known evangelist needs no introduction.

Why Is Ill Health?

Many Causes for a Run-Down Condition.

One of the Most Common is Anemia (General Bloodlessness)

"Ill health" is a relative term. Some individuals are terribly and seriously ill, and need the services of the best doctor obtainable. The best actor obtainable.

Others are not so seriously affected. If your ill health is a result of weak watery blood (an exceedingly common condition) you can recognize it by the following signs or symptoms:

- 1—Poor color or real paleness.
- 2—"Tired-outness" or general weakness.
- 3—Frequent headaches.
- 4—Loss of appetite.
- 5—Lack of spirits and ambition.
- 6—Loss of bodily strength.

The best remedy is one that will overcome the cause—Anemia or Bloodlessness. "Gude's" Pepto-Mangan is the one peculiarly valuable medicine for this purpose. It supplies the weak, watery blood with the very elements it needs to put new life into the vital fluid (the blood) which carries the good one gets from one's food to all parts of the run-down body. It repairs, recreates, revivifies and rebuilds the exhausted blood, the fountain and foundation of health and life. Try Pepto-Mangan if you are "run-down." It cannot harm you—it will certainly help you unless you have some deep-seated chronic disease requiring the physician's care. Be sure the name "Gude's" is on the package. Without "Gude's" it is not Pepto-Mangan. For sale at all druggists. Adv.

The very worst possible condition has existed, until recently at best, at New York's great deportation station. Some high officials in charge have been, if not in direct open sympathy and co-operation with the "red" radicals who are acknowledgedly seeking to overthrow the government, expressing sympathy not only with the guilty individuals and their co-workers in villainy and, on occasions, belittling the enormity of their crimes and questioning the righteousness of the action of the government they are sworn to serve.

One after another these startling revelations of conditions come from almost every pulsing center of war-time activity.

The government officials, too many of them, seem unable or unwilling to lay hold of conditions and set things to rights.

There has been too much leniency shown to those who hold the government and its institutions in contempt. There is too much inclination to argue and debate with traitors and anarchists, too much theory and too little hard, practical sense used in seeking a solution of the tremendous problems which vex us.

The punishment, such as can, legally, be meted out to the "red" revolutionists at work here, is too often softened by the men in charge of executing the laws.

Officials who cannot see the path of duty that opens up before them in times like these should be dismissed summarily—not "let out," but kicked out, promptly.

In trilling with conditions and "conscientious" mad men bent on destruction, in seeking to justify the decrees of our own laws as affecting traitors, officials are, if possible, doing more harm than those who openly and brazenly plot and preach treason.

The government at Washington must rouse from its dream and get to work in earnest. The fact that the worst anarchists on earth, as disclosed by the committee reports were held back at Ellis Island, the deportation order not followed and a regular college of Bolshevism maintained in which officials participated as teachers, pupils and corresponding agents, is enough to rouse the fighting blood of patient Americans. It does, too.

Ellis Island, according to the investigating committee, has not been "functioning" regularly for some time and neither have the officials who permitted such a treasonable outfit to hold power.

The low-downs and the high-ups too should be made to answer for the existence of such conditions. This is a time for sturdy patriotism and not a time for debate with those who seek destruction.

We must separate the sheep and the goats wherever found—no matter what the reason or theory may be for their being what they are—and brand them with a brand that will not come out. Let's have done with the nonsense and get back to that good, hard, practical, active and militant patriotism which admits of no question of its sovereignty and justice.

American patriotism is not a theory to be argued and debated with the human vermin of Europe or the half-baked parlor Bolshevik who has enjoyed life and acquired plenty under the starry flag of freedom. American patriotism is tried and proven by the deeds of heroes and the blood of the nation's defenders—it's a fact, a blessed fact, and it must be preserved not by arguments with or the offer of bribes to those who question it or inveigh against but by the sturdy blows of real patriots who will not bear it questioned.

Contract Breakers

When Germany, violating all treaty obligations with other nations, whenever selfish purpose demanded, declared that all treaties were only "scraps of paper," the world was amazed.

Advancing the doctrine that no treaty save one enforced by might had any binding force, that there was no such thing as moral obligations between nations, the whole world stood aghast at Germany's pronouncements.

It is astonishing, though, the number of individuals who, while denouncing in words, such a monstrous doctrine disregard the terms of solemn contracts and lightly refuse to be bound by an obligation when it "hurts" them or inconveniences them to do so.

Prior to the war a man who refused or even neglected to live up to his contract soon became an outcast. Of late, perhaps encouraged by chaotic conditions, many men in the business world wholly ignore their contract obligations, live up to them when it pleases them to do so and brush them aside as worthy of no serious endeavor or thought even when occasion makes it more profitable for them to follow that course.

Reliable, competent optical service costs no more than the careless kind and it saves you much inconvenience and money later.

POETRY FOR TODAY

BEAUTY SHALL LIVE.

Oh, could the fiddle know
How we enjoy its soaring singing tone
Brought out by one who makes his
soul its own,
How happy it would be!

Oh, could the rose but sense,
The lily feel, the violet recognize
How lovely they appear to human
eyes,
How much more beauty might they
not reveal!

Oh, could the stars but see
How dewy eyes down here light up at
sight of them,
Serene and pure in heaven's diadem,
How blest the stars would be!

Is there a world above,
Where all this may be true?
A quickening world that glows—
Fiddle, and star, and rose,
Living, for me and you?
Returning thrill for thrill and love
for love?

It must, it shall be so,
Beauty shall know
Itself, its like, its power in every
thing;

Star, harp and flower, by feeling's
magic dower.

(Oh, poet's vision fond), shall to our
souls respond,
And through us, blest forever, live
and sing!

LIMA BRICKMASON HAS NOW OVER- COME ALL HIS TROUBLES

Declares since he took the new
root and herb remedy, Drecto,
that his backache, constipation,
and liver trouble have disap-
peared—overcame catarrh.

"It is great to feel well once more
and be free of pains and aches," said
Mr. Philip Archinal, the highly re-
spected brickmason of 442 W. Hallar
St., Lima, O.

"I am 63 years old, but feel young
and supple. This Drecto medicine
has knocked all that backache out
of me. Bricklaying is a supreme
test on a man's back, and mine was
giving me a lot of trouble. It hurt
me to stoop over. My kidneys were
out of condition, and I frequently
had headaches, dyspepsia, and gas-
tritis also bothered me. My liver
was lazy, and I got very bilious.
I had catarrh of the head very bad.
I'd be all filled up every morning
with mucus, and it would take sev-
eral hours before I'd get it cleared
up.

"I've always believed in the old-
style root and herb remedies, so
when I learned that Drecto was
made from the juices of twelve dif-
ferent herbs I bought a bottle. It
sure got to work on me quick; my
bowels began to act free and easy;
my liver took on new life and threw
off the excess bile; my tongue
cleared up, and the bad taste in my
mouth ceased. In the morning
now I get up with my head almost
clear, showing that the catarrh is
much better. By the time I take a
couple more bottles I'll be as well as
I ever was in my life."

Drecto acts from the bottom up,
and the results are usually lasting,
for it removes the causes instead of
just patching up the symptoms. It
thoroughly cleanses the system of
its impurities, increases the appe-
tite, restores shattered nerves, re-
lieves gas on the stomach, drives
out rheumatism and banishes cat-
tarrh.

All good druggists now sell Drecto,
and it is highly recommended in this
city by

An Enviably Reputation Already Won

Hundreds of dealers who drove new Cleveland Sixes
from the factory in Cleveland to their home cities have
written the factory expressing their admiration and confi-
dence in the car. What they all say is summed up in this
sentence from one of them, "I can look any man in the face
now and tell him the Cleveland is a regular automobile."

And that's what the Cleveland
Six is—a regular automobile, an
unusual automobile.

Hundreds of Cleveland Sixes,
within the past four months,
have undergone long, grueling,
cross country drives, with honor.
They have passed over great
hill drives and long mountain
climbs, plowed through mud and

washouts and desert sands where
other cars stall and stop.

Its power and endurance have
already won the Cleveland an
enviable reputation. This is
not surprising, for skill and sin-
cerity are built into this car by
men who have contributed their
genius to the building up of one
of America's finest quality cars.

Wife Tells Why Whole Family Takes Hypo-Cod

"You Get Wonderful And Quick Results When You Take It."

"I'll tell you why nearly everybody in our family is now taking Earle's Hypo-Cod declared Mrs. H. M. Pier-son, 815 Hamlet Ave.

"My husband was in a rundown weak condition and had no appetite. He couldn't rest well at night. He took Earle's Hypo-Cod and it built him right up just grand. Then one of my little boys aged 3 years had the 'Flu' last winter, and not been well since. He couldn't control his little kidneys but we hadn't given him Earle's Hypo-Cod more than a couple days, before you could see a big change in him. My husband's appetite is splendid now and he is so much stronger and better and is gaining in weight so rapidly he says he's going to buy Earle's Hypo-Cod by the case and have it in the house. Almost the whole family is taking it now, and with another of our little boys we gave it to him because since a minor operation he hadn't been well. We sure are pleased with Earle's Hypo-Cod and the beauty about it is that one bottle get results whereas most medicines show no results at all for days and weeks" continued Mrs. Pier-son, 815 Hamlet Ave., Columbus, Ohio.

The lady above is doing what doctors, druggists and health authorities everywhere are urging families to do. Get the whole family into the pink of condition and in this way fortify themselves against disease, a possible return of the "Flu" or another winter ill. Earle's Hypo-Cod is much stronger and quicker to act—That is why it is the one recommended. Come down to the store and take home a bottle for the whole family.

Get a bottle tonight. Earle's Hypo-Cod contains the compound syrup of Hypophosphites of lime, potassium, manganese, strychnine, quinine, and sodium combined with the extract of

Receipts of cattle at this market for the first two days of this week were estimated at 48,000, as compared to actual receipts of 61,692 for same days last week. Under lighter offerings, all kinds of killing cattle sold 25 to 50c higher, with a good demand and an active market. Top on Monday was \$19.00 for best cattle offered.

Receipts included a good big supply of stockers and feeders, with an excellent selection and prices steady to stronger on all grades. Some sales looked 15 to 25c higher than low time last week and the feeling in the trade was good with a big demand, a large attendance of buyers and good action to the trade.

We had a large number of loads of good Herefords in all weights as well as a big selection of Angus. Shorthorns were more plentiful than any other breed of cattle and showed plenty of quality. There was also a generous showing of the cheaper classes of cattle selling from \$6.50 to \$8.50. Liberal receipts are expected the remainder of this week and next week, which is Stock Show Week. We would advise the purchase of these cattle now while the season's runs are still coming and the selection is good.

Very truly yours,

JOHN J. LAWLER.

FUNERAL SERVICES MRS. OWEN HIDEY

The First Presbyterian church held a very large gathering of friends Wednesday afternoon for the funeral services of Mrs. Owen Hidey and it was an assembly deeply saddened in thinking of the untimely death of the young wife, who with her baby, slept amid the flowers which filled the church.

Rev. G. E. Groves conducted a most affecting little service and the hymns "Oh, Love That Will Not Let Me Go," and "My Jesus, As Thou Wilt," were sung by Mrs. Burgett and Miss Dorothy Fullerton.

The minister spoke with much feeling of having officiated, in the absence of her own minister, at the marriage of Minnie Roseboom to Owen Hidey, and the subsequent interest he had taken in the young couple, so soon separated by the war, and having so short a span of happy married life.

The burial was made in the Washington cemetery, with the acting pallbearers Messrs. Edward Hidey, Owen Barr, Jess and Henry Todt Oliver and Luther Robinette.

The flowers were most beautiful, including special designs from the wholesale house, Jess W. Smith Store, Philaena Sunday School Class of the Presbyterian church, Queen Esther Circle of Bloomingburg and McNair Memorial church.

Relatives here for the services included: Mrs. John McConaughay, Mrs. Clem Smith, Mrs. Joe Isler, Mrs. Lester Davis, Mr. Clint Robinett and family, Mrs. Ida Hidey of Dayton.

WAS NOT 'POSSUM

Visions of a fine o'possum roast recently went glimmering for a local colored boy who thought he had in his possession one of the coveted rarebits. When a nicely dressed o'possum, all ready for the pot, was offered the lad he was quick to take advantage of the sale.

After some investigation and a little dissection before the supposed o'possum was taken home the fact was revealed that the object purchased was the carcass of a skunk.

WHY U. S. NOVELS ARE UNPOPULAR AMONG BRITISH

London, November 10.—(By Mail)—The defect of incomprehensibility is the main flaw found in American novels by "M. A. B." (Mainly About Books) a monthly periodical, in pointing out reasons for "the comparatively small importation" into England of the American literary efforts.

After quoting extensively from a tobacco advertisement "culled from the pages of a noted American monthly magazine," in which references are made to "jamming a joyous jimmy pipe chock full and blazing away" which, it is promised, will "put the quiz into your thinktank as to how much pipe or cigarette-rolling fun you've gone shy on," the English magazine says:

"Effective as the above doubtless is for the purpose of trans-Atlantic advertising it is possible that vernacular largely corresponding to this, distributed over some hundreds of pages in works of American fiction accounts for the comparatively small importation of American novels. Often, we do not doubt, they are intrinsically admirable. Only, for us, they have the defect of incomprehensibility."

Mileage + Confidence = MCGRAW

Users of McGraw Tires get something more than mileage; they enjoy a feeling of security—can rely upon full service from their equipment. The real difference in quality tires lies in the way they are made—not only in the care and inspection employed, but also in the ability to automatically control a perfect build of the casing, free from wrinkles, fabric pinches and buckles.

In McGraw Tires, these defects are prevented by

The Duplex Method

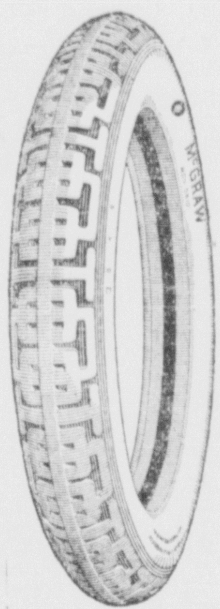

This is a McGraw process of vulcanization which prevents fabric buckles and mold pinches—the worst menace to tire life. It consists in deferring compression of the tire in the vulcanizing molds until the rubber becomes heated and plastic. Then, when hydraulic pressure is applied to vulcanize the tire, the rubber "flow" is not stiff enough to pull the fabric out of place. The fabric layers "set" smooth and even. No creases can form. Pinches and buckles are avoided. The tire is a perfect structure.

McGraw Tires have the mileage in them inherent in highest grade materials, and with ordinary care you *always* get full mileage out of them.

CIPHER HANDED TO WILMINGTON IN FINAL GAME

*Washington Covers Self
With Great Gobs of Mud
And Plenty of Glory.*

*Wilmington Held to Three
First Downs and Game is
Called to End Slaughter.*

Washington High School's gridiron program came to an end in mud and glory at East End grounds Thursday afternoon with an overwhelming victory over their old rivals Wilmington. The score was 57 to 0. It might have been more but the officials decided to let the visitors off "easy" and called the game five minutes before time.

Never before have local football fans witnessed such a contest. Within a few minutes after play had been called it was hardly possible to distinguish the two teams. The faces of the players were black with mud and their bright colored suits were all the color of mother earth. Each player was soaking wet from frequent contact with miniature lakes with which the field was amply supplied.

Captain Moorehead gave each man on his squad an opportunity to perform and the way they acted is emphasized by the score. In all, 22 men were used during the game by the Blue and White. They held Wilmington to three first downs.

First Quarter.

Riggin, acting Capt. of Coach Price's squad, won the toss and chose the west goal. Captain Craig decided to receive. The ball was down on Washington's forty yard line. On the first play Craig made thirty yards around right end. Two more bucks and the ball was on Wilmington's 1 yard line. Craig shoved it across.

From then on until the last whistle it was one succession of kickoffs and a touch down by the Blue and White. Rief added another six points and then Weaver reeled off a forty yard run but was down at the line. He carried it across for the third touch-down. Owing to the wet and muddy ball it was impossible to kick goals. The quarter ended Washington 18, Wilmington 0.

Second Quarter.

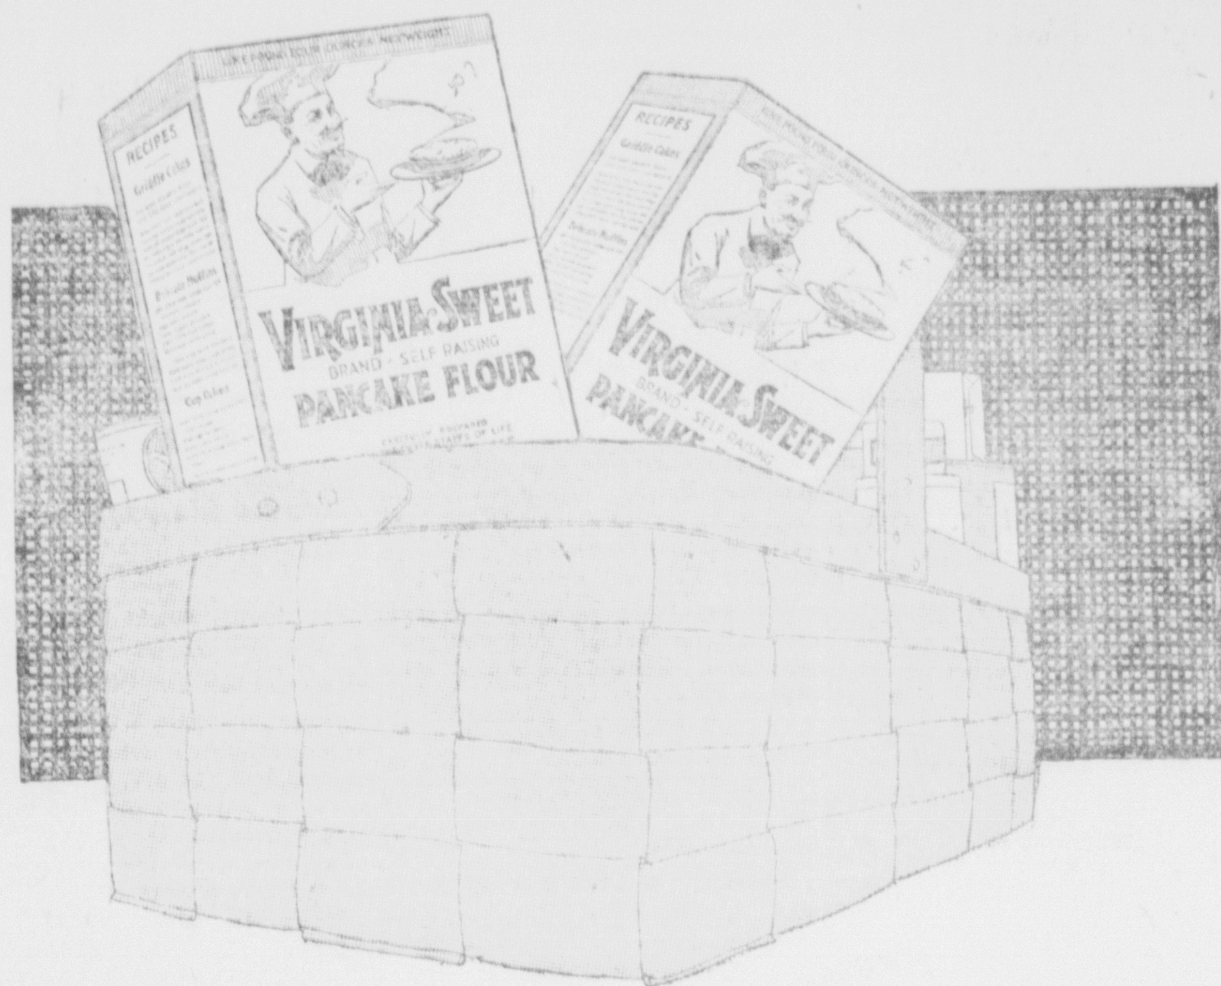

Big Bud Thompson started the scoring by nabbing a Wilmington "back" behind the line for a safety. His playing on the line was next to sensational during his time in the game. Rief playing his farewell game, again went around end for another touch-down. The half ended Washington 26, Wilmington 0. Wilmington made but two first downs in the first half.

Third Quarter.

Almost an entire new line took the field for the second half. Swartz, at half for the last time in his High School career, went over the visitors line for a touch-down after two minutes of play. Craig made another sensational run for a counter. Score, Washington, 39, Wilmington, 0.

Fourth Quarter.

Rogers made a feature run for a touch-down by tearing through the Wilmington field for 50 yards. Three minutes later he scored another touch-down. Captain Craig took the

Weak Women

If you are Tired, Over-Worked,
Run Down, Vinol, our Cod Liver
and Iron Tonic, will help you.

Mrs. Hatcher Says So

So, Pittsburg, Tenn.—"I was in a weak, run-down condition, no appetite and could not sleep. I teach school and could hardly keep around. A friend told me about Vinol and it stopped my cough, gave me a good appetite and built me up so I feel stronger in every way." — MRS. C. F. HATCHER.

Women who are run-down, nervous, lack energy and working strength should take Vinol as it contains Beef and Cod Liver Peptones, Iron and Hypophosphites, the very elements needed to restore a lost appetite, enrich the blood and create strength.

Why Not Build a Bigger Barn?

You need more stable room? Why not lift up the old barn and build a modern stable below—make the walls and floor of concrete, put in new equipment—and be ready to add to your dairy herd or to fatten more cattle this winter?

An inclined approach will make the second story almost as handy as before. Your new capacity will cost comparatively little.

Ask us how to do it.

VARGA MAKES POOR SHOWING WITH MATSUDA

Portsmouth "Unbeatable" Finds Crafty Jap Too Much For Him to Handle.

Did Not Make Weight Agreed And Failed To Throw Matsuda in Sixty Minutes.

Joe Varga, weight 174½ pounds, much touted wrestler of Portsmouth, brought to this city with one purpose of throwing Mattie Masuda, the light-weight champion, failed to put the crafty Jap to the mat in one hour of intensive action at the Armory Wednesday evening before the largest crowd that ever saw a grappling match in the armory.

Varga had agreed to make 170 pounds at six o'clock but sealed over 174. Because he was not able to make the agreed weight, he promised to throw Mattie twice in 60 minutes. Matsuda did not weigh quite 140.

After the first three minutes of wrestling it was easily seen by the fans that the "unknown" would probably fail to throw his diminutive opponent. But one hold was of any consequence was secured by the Portsmouth man, a toe hold, during the match. Mattie seemed able to keep the challenger from applying anything that looked like a clincher on him and was continually worrying Varga by throwing him over his head and securing a few headlocks intermingled with wrist locks.

Tricks of the wrestling game were used several times by both men and enlivened the match to a great extent.

Many fans agreed that Matsuda never appeared to better advantage in craftiness, strength and wrestling skill.

Varga never at any moment seemed to solve the ring antics of Mattie and after the match stated in the ring that he did not believe that there was any man of less than 165 pounds in weight who could be able to put the Jap on his back. However Varga asked for a finish match at 170 pounds. No arrangements were made for another meeting between the men.

Walter Hamilton of Columbus refereed the bout.

In the preliminary, Bill Brooks, of this city, and Hamilton, of Columbus, went fifteen minutes to a draw.

Mike Hillery performed the duties of referee in the opening contest.
